Brennin's 'THE CATTLE MARKET AS I SEE IT' Commentary:

Market on the first cut grass type cattle is very strong, but there is a lot of second and third cut cattle coming to town. Cattle that are late cut, covered with excessive tag, over fleshed, froze eared, and excessively tall and narrow types are being heavily discounted.

The odd ball type cattle with major blemishes are also being discounted, lumps, bumps, early pregnancy cases, big horns, feet problems, questionable castration methods etc.

The Cow and Bull Market is still very strong, Packers are really after the Hard, Lean “Canner” Type Cows with good weight to them, The fleshier “Cutter” Type Cows will bring less per pound as they are not as desirable because they’re already getting lots of fatty trim coming off the fat cattle.
